Summary

Senior Consultant/Architect specialized in software solutions design, implementation, operations and selling, with recent focus in enterprise consultancy/architecture positions.

Through my whole career I have been working on, promoting, using and contributing to the business productivity and collaboration eco system on Microsoft platform for various customers from small firms to enterprises.

I have +13 years of experience, half of them focusing on Digital Transformation, I've been operating on all the stages from development, pre-sales, consultancy and advisory.
